

## **Upper School Students join the Outdoor Club for a float down the Little Spokane River!**

**On January 29<sup>th</sup>, 2021 at noon. Meet at the Outdoor Gear Room.**

It has been too long since we have gotten out! This time of year, there are lots of eagles along the river. Let's go explore our backyard while following state guidelines.

To join us, you need to have your parents fill out the waiver on PowerSchool and sign up below.

Because of current circumstances, we will be floating down and walking back instead of using vehicles. Masks need to be worn while hiking back and are optional while on the river. Please bring extra layers and appropriate shoes to hike back in. The outdoor program has drybags for you to borrow. The plan is for us to canoe down the river, load the boats, and then hike back. Because it is winter, wear rain gear over your layers and please do not wear cotton. You want synthetic or wool layers that will keep you warm if they get wet. An extra pair of gloves is recommended. Please see Melanie with any questions.

Sign up below and please have your parents fill out the waiver on PowerSchool:
